InPlace Medical Solutions to Exhibit at Brasil Offshore

HOUSTON, April 27, 2011 / InPlace Medical Solutions™, the first video medical service for the offshore industry, will be exhibiting at the Brasil Offshore 2011 Conference in Macae, RJ, Brasil from June 14 – 17, 2011. NuPhysicia Serviços Médicos Offshore LTDA, the Brazilian subsidiary of NuPhysicia Inc. of Houston, Texas, is the exclusive Brazil operator of the world's leading video offshore medical service and operates InPlace Medical Solutions in Brazil.

InPlace Medical Solutions provides highly trained medics, physician examinations and oversight, advanced equipment, medical-quality videoconferencing, an electronic medical record (EMR) system, and an enhanced medications inventory. Services are delivered securely through a location's Internet capability.

About InPlace Medical Solutions

Available worldwide, InPlace Medical Solutions better manages offshore workforce health and lowers transportation risks and expenses. Offshore oil operators and drilling contractors benefit from reduced operating costs and higher workforce productivity. For more information about InPlace Medical Services, contact Shannon Caldwell at 713-358-9270 or visit www.inplacemedical.com.

About NuPhysicia Servicos Medicos Offshore LTDA

NuPhysicia Serviços Médicos Offshore LTDA offers 24/7 services from its offices in Rio de Janeiro, with Brazilian physicians providing care to personnel on offshore rigs and remote sites in the region. Exclusively using the InPlace Medical Solutions unique video-telemedicine medical service, physicians examine and diagnose ailments of offshore workers remotely. A global service, InPlace Medical Solutions better manages offshore workforce health and lowers transportation risks and expenses. Offshore oil operators and drilling contractors benefit from reduced operating costs and higher workforce productivity.
